

October 29, 2007

To whom it may concern:

I am writing on behalf of A.L. Huber, general contractor, whom we have used to build our last three buildings.

Huber has proven to be a reliable contractor who has constructed high quality buildings in a timely fashion with maximum responsiveness to our various needs and requests.

Huber just completed the construction of our most significant building, a beautiful Nineteenth Century colonial-style sanctuary that stands as an instant landmark in south Overland Park. The aesthetic beauty of this building is a product of thoughtful design for sure; however, it is a credit to Huber who carried out the task of building it according to our tedious specifications. We are very pleased with their work on this project and have appreciated the obvious care and consideration they exhibited while building.

David Porter, Huber's project superintendent, deserves particular recognition for his careful leadership and immediate responsiveness to our ongoing requests throughout the duration of the project. David is a skilled superintendent whom I am certain would provide the same quality leadership to any project he was in charge of.

I recommend A.L. Huber as a company that will execute their work in a skilled, competent, and reliable manner.

Sincerely,

A handwritten signature in black ink, appearing to read "Anthony J. Felich", with a long horizontal line extending to the right.
